Sweet Dream, Morning Light

by Anonymous

Summary

Phainon stares down at Mydei, fast asleep beside him in their shared bed, the dim light of the Entry Hour filtering through the curtains and brightening the edges of him in a warm glow. Like this, fast asleep, there is a sense of peace in his expression. A lightness that Phainon rarely sees when Mydei is awake, a freedom from the burden of responsibility and duty. His breathing comes out as soft, warm puffs of breath against the pillow, the only sign of wakefulness a discontented murmur when Phainon had extracted himself from Mydei's embrace with great difficulty; it's the siren's call of sleep and the safety of Mydei's arms, head to his chest and hearing his strong heartbeat beneath Phainon's head, that tempts him to retreat back under the covers, but when he remembers what they agreed on, a flash of arousal chases away the haze of sleep.

Phainon stares down at Mydei, fast asleep beside him in their shared bed, the dim light of the Entry Hour filtering through the curtains and brightening the edges of him in a warm glow. Like this, fast asleep, there is a sense of peace in his expression. A lightness that Phainon rarely sees when Mydei is awake, a freedom from the burden of responsibility and duty. His breathing comes out as soft, warm puffs of breath against the pillow, the only sign of wakefulness a discontented murmur when Phainon had extracted himself from Mydei's embrace with great difficulty; it's the siren's call of sleep and the safety of Mydei's arms, head to his chest and hearing his strong heartbeat beneath Phainon's head, that tempts him to retreat back under the covers, but when he remembers what they agreed on, a flash of arousal chases away the haze of sleep.

Very slowly and just as carefully, Phainon pulls the sheets and blankets back and off both of them, folding them down at the foot of the bed. Mydei shifts, naked save for his undergarments, burying his nose into the pillow as if seeking warmth, but does not wake.

Phainon knows he needn't be too careful - Mydei drank wine the night before, to put himself in a deeper sleep than usual for their little experiment - but he still moves slowly and reverently as he gently lifts and presses against Mydei to arrange him how he wants. A press to Mydei's shoulder to roll him onto his back. A touch to the back of his knee to make him shift.

Phainon gingerly lifts one of Mydei's legs to make room for him to settle between them, leaning in and pressing a feather-light kiss to his inner thigh, before running his hands up Mydei's hips. His skin is supple and warm, body pliant with sleep and lacking the usual tension of battle-readiness that Mydei so often displays. Phainon takes his time as he hooks his fingers around the band of Mydei's undergarments - a simple, cotton thing, soft and easily slid off - and begins to shift it down.

At Phainon's light, trailing touches and the soft fabric slowly sliding across Mydei's bare skin, Mydei makes a little noise in his sleep. His leg shifts slightly, as if wanting to press his thighs together, but Phainon sits between them. He laughs quietly, but his attention is consumed by the way the fabric clings to Mydei's cunt, already damp with arousal. When Phainon nudges his legs apart more, he sees the little blue handle of the toy that kept Mydei stretched and prepared throughout the night, the color just peeking out between the pink, flushed folds of Mydei's labia.

It takes all of Phainon's self restraint to not rip the undergarments off in one go and instead to carefully shift around to slide them off Mydei steadily - but when he has tossed them to some corner of the bedroom and settled back between Mydei's thighs, he realizes that he is so hard it almost hurts.

Seeing Mydei like this - so open and pliant and vulnerable, trusting Phainon to take care of him and do what he wishes even when asleep - gives Phainon a rush like nothing else. It makes him lightheaded and heated, and when he finally reaches forward to gently part Mydei's labia, he has to bite back a groan.

Mydei is so *warm*, and his skin is velvet-soft, slightly wet from arousal, and his cunt is stretched around the blue toy that's been in him all night. He had put it in almost clinically the night before, refusing to let Phainon help, but Phainon could see the flush that tinted his cheeks and the tips of his ears. He noticed the way Mydei shifted his legs together when they went to bed, the way he took longer than usual to fall asleep and clung to Phainon all the while, as if wanting to be touched but refusing to give in and ask for it.

Phainon gently takes hold of the little handle and tugs lightly, and at the very first movement Mydei whimpers quietly in his sleep. His leg shifts again, in the way that it does when he wants to squeeze his thighs together, but Phainon continues the movement. He watches with rapt attention, eyes flitting from the toy slowly being pulled from Mydei's cunt, the way his muscles tense and the way his hole is stretched around it, up his body, over his sculpted abs and to his ample chest rising and falling in heavier breaths, to his face, expression still mostly relaxed with sleep but his brow beginning to pull together from the stimulation.

Phainon reaches down with his other hand and spreads Mydei's labia more with his fingers, giving him a better view as he finishes pulling the toy out. Its rounded head and soft, synthetic shaft shimmers with Mydei's arousal, and when Phainon removes it fully, a silvery strand of it stretches between the toy and Mydei's cunt, like he doesn't want to let it go. Mydei lets out a little, muffled groan.

Phainon swallows, enraptured, and sets the toy to the side carelessly, eager to return his attention to Mydei. Slowly, rubs Mydei's labia with his fingers, marveling at how warm and soft and pliant he is, folds flushed and swollen with arousal. And when he presses two gentle fingers into Mydei's cunt, Phainon feels himself throb in his undergarments - because Mydei's cunt is soft and silken, inner walls warm and instinctively fluttering around his fingers even in his sleep.

Mydei lets out a puff of an exhale, turning his head to press his cheek into the pillow. The furrow in his brow has deepened and a slight sheen of sweat shimmers at his temples, but he remains asleep.

It takes only a few moments of fingering Mydei's cunt for Phainon to be satisfied that he's stretched and aroused enough. His cunt is leaking with wetness, and in just a few pumps of Phainon's fingers, gently stroking Mydei's inner walls, pressing where he knows Mydei's G-spot is, his fingers slide free with a squelch and come away coated in slick.

Phainon's patience is running thin, and he is overcome by the need to be inside Mydei. How could he not, when Mydei is a vision beneath him, body given to him freely, willingly, in its entirety? His tattoos wind seductive shapes along his muscles, and Phainon wants to make them glow with orgasm. It takes only a brief moment for him to free his cock, already achingly hard and dripping with precome, and press against Mydei's cunt.

It is an easy slide in, though harder for Phainon to stop himself from thrusting all the way in at once, with how warm and soft Mydei is around his cock. He bites his lip to muffle a whimper, not wanting to wake Mydei - at least, not before he makes Mydei come.

Miraculously, Mydei stays asleep. His breathing comes in faster and deeper exhales, and his hips twitch upwards in cute little movements, body instinctively chasing Phainon's touch and

warmth. By the time Phainon fully enters Mydei, he is panting with the effort of keeping his movements slow and steady and quiet, and it's so, so hard. He wants to thrust in, to chase pleasure and indulge in the velvet heat of Mydei's cunt.

Phainon takes a steadying breath and sets a slow tempo instead, pushing in deep and steady, moving carefully to avoid jostling Mydei too much. He watches, enraptured still, as Mydei hums with sleepy confusion, shifting against the sheets, breathing open-mouthed. And when Phainon reaches down between them to touch Mydei's clit, he drinks in the way Mydei's whole body jolts from just the barest touch, and then the way he whimpers and his eyelids look as if they're about to open when Phainon's touches become firmer, swiping the pad of his thumb along Mydei's clit, catching it between two of his fingers and rolling gently.

When Phainon feels Mydei tense beneath him, clenching around his cock, thighs instinctively pressing tighter around Phainon's sides, tattoos beginning to glow, he finally lets himself pick up the pace. Phainon lets his thrusts become deeper and less steady, drawing his hips back and then pushing in, angling his hips the way he knows Mydei likes it. He plays with Mydei's clit more firmly, pressing against it, rubbing it in varied patterns, watching the way Mydei's breath comes fast, panting, chest rising and falling, a flush spreading over his face and down his neck, the way his body shifts and twitches and tenses, as if confused but chasing pleasure all the same. Little noises escape Mydei's open mouth, tiny whimpers and moans, cut off when he can't catch his breath.

"Mngh … Ah - !"

When those noises pitch up, Phainon knows Mydei is close - he presses in deep again, swipes firmly against Mydei's clit, and watches the way his tattoos glow brightly in the dim light of their bedroom.

Mydei's back arches off the bed and his whole body tenses, clenching around Phainon, as he comes with a loud, unrestrained moan, squirting over Phainon's cock. Without him being conscious to think about it, Phainon is treated to the open expression of pleasure on Mydei's face, the way his brows pinch together and the little whimpers of his orgasm. Mydei's cunt continues to flutter around him in the aftershocks, and his breathing is quick and heavy as he opens his eyes, finally, slowly. His gaze is soft and watery with unshed tears, and Phainon can tell the haze of sleep still clings to him.

"Hah … ah … Phainon?"

Mydei's voice is thick with sleep but soft and relaxed in a way that makes Phainon's chest clench. He shifts so that he can lean down, closer to Mydei, and smiles.

"Yeah," Phainon says, voice barely above a whisper. He can hear the bone-deep affection in the word as he breathes it out. He lifts one of his hands to cup Mydei's cheek, relishing in the way Mydei immediately leans into his touch, rubbing against his palm like a cat. "You're awake. How was it? Should I keep going?"

Mydei lets out an exhale as he tries to catch his breath, the warmth of it ticking Phainon's hand. "Mm … It feels good," Mydei says, slowly, still not entirely awake, so open and honest in his drowsiness, the way he stares at Phainon with half-lidded molten gold eyes so enticing

that Phainon trembles with the effort of staying still. Mydei lifts a leg half-heartedly, lazily hooking it around the back of Phainon's thigh, and smirks at him even through the haze of sleep. "Keep going."

Phainon laughs, delighted, and strokes Mydei's cheek with his thumb. He leans forward and kisses Mydei, just a chaste press to his lips, before leaning back again. Mydei turns his head away from Phainon's palm and instead threads their fingers together before bucking his hips up tauntingly.

Phainon just grins, silently accepting the challenge. He braces himself against the mattress, pulls back - and then thrusts in, setting a frantic pace, finally free to state the coiling heat and arousal in his core. Mydei chokes on an inhale at how deep Phainon thrusts in, moans openly falling from his mouth. When he tries to meet Phainon's thrusts, his movements are uncoordinated and disjointed as he tries to wake up fully - but all it does is add a sense of unpredictability to their coupling, and when Phainon hits his G-spot, Mydei's breath stutters.

It doesn't take long for Mydei to tense again. Phainon hears the signal first - when Mydei's moans devolve into little whines - and he knows Mydei is close. Phainon has been on the edge of orgasm the whole time, holding back through sheer force of will, so hard that it hurts and constantly taunted and tempted by how soft and warm Mydei is.

So he reaches down between them again, pressing his thumb against Mydei's clit, and delights in the whimper it causes as Mydei throws his head back against the pillow, gold and red hair surrounding his head like a fiery halo.

"Mydei," Phainon breathes out between ragged breaths, his words sounding like a plea. "Mydei - !"

"Phainon - " Mydei tries to respond, but every touch to his clit and every thrust inside fucks the words out of him and he can't string together a sentence. Instead, he devolves to whimpers and moans. "Ngh - ah - I'm - !"

Phainon pulls back until just the head of his cock is left inside, and then thrusts in again, making sure to press deep into Mydei, angling right towards his G-spot. White overtakes his vision as his orgasm crashes over him, electric pleasure zipping up his spine and bolts of sensation making that tight coil of arousal in his core snap as he reaches the peak. He feels himself coming inside Mydei, filling him with heat. Even through his own pleasure, Phainon makes sure to keep his hips moving shallowly, ignoring the sparks of oversensitivity, and rubs Mydei's clit in steady patterns.

"Ah - !"

And that is enough to tip Mydei over the precipice, too - he tenses, tattoos glowing again, clenching around Phainon so hard, his leg kicking out as he squeezes Phainon's hand and squeezes his eyes closed, mouth falling open around a moan as he comes and squirts a second time, inner walls fluttering around Phainon's cock and come leaking out around it.

Phainon slows his movements as he watches Mydei come down from his orgasm, trembling through the aftershocks. Once Mydei's grip on his hand loosens and he takes a deep breath,

opening his eyes to look at Phainon with that warm, soft look, Phainon pulls out slowly, murmuring apologies when Mydei winces but still unable to look away from the way his come and Mydei's slick leaks out of Mydei's cunt. Absently, he swipes it with his thumb and pushes it back in, overcome by the thought of marking Mydei so fully inside.

"Enough," Mydei says, his voice rough but not truly scolding Phainon. Instead, when Phainon looks up at him with a cheeky grin on his face, there is a barely concealed plea for affection on Mydei's face.

And who is Phainon to deny him? He shuffles up the bed again, ignoring the mess they made for the moment, and presses an adoring kiss to Mydei's forehead, then to his cheek, to his nose, and then to his lips. Mydei kisses back just as lovingly, slowly, lazily, with such relaxed ease that the completeness of his trust makes Phainon's eyes sting. But he blinks the emotion away and instead noses Mydei's cheek when their lips part, sighing in contentment and nuzzling against him.

"It's still early," Phainon says, absently.

"You were the one who decided to start at this hour," Mydei says, tease in his voice. There is no heat to it, only fondness. He tilts his head, leaning against Phainon and pressing a kiss to his hair.

"I would say our little experiment was a success," Phainon says after a few long moments of basking in Mydei's presence. He raises his head slowly, unwilling to part from Mydei but wanting to look in his eyes, letting Mydei see the glint of mischief in his own expression. "And we still have some time before the day begins …"

Mydei huffs, but it sounds closer to an indulgent laugh. He barely hesitates before sighing - though a smile is on his face all the while. "If you aren't sated, then get on with it," he says, as if his hand isn't squeezing around Phainon's and his other isn't splaying across Phainon's chest, not-so-accidentally scraping a nail lightly over Phainon's nipple. Phainon's breath hitches, and then his eyes narrow in playful challenge.

"My apologies, Your Highness," Phainon says, teasing,"but I could never have enough of you." And before Mydei can chide him for being sappy, he dips his head to kiss him again. This time, however, it isn't chaste - he kisses Mydei open mouthed, and hums in satisfaction when Mydei's breath turns ragged again and he lets Phainon kiss him breathless.

The morning has come, but for now they are cocooned in a moment just for them - to indulge in each other's presence for as long as they can.

End Notes
